About Company

Established in 2011 in Riyadh, HRGF is a trusted Saudi firm offering expert consulting services in electrical, structural, civil, environmental, and mechanical engineering. Known for quality and professionalism, HRGF also provides construction management services, delivering efficient solutions for projects of any scale.

Our Mission

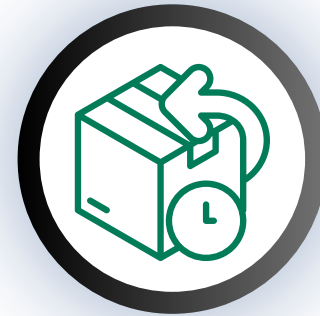

Agile to new horizons beyond boundaries delivering reliable, sustainable, innovative, and cost-effective solutions to our clients & build enduring relationships with them through service excellence.

Our Values

Integrity

Upholding the highest standards of integrity and compliance in all our actions.

Excellence

Exceeding customer expectations to create lasting satisfaction.

Safety

Ensuring a safe and secure environment for our employees and clients.

Our Goals

To be a global market leader in engineering and project management consultancy by consistently unlocking enhanced value for our clients and becoming the preferred partner of choice.

01

Continuously provide cutting-edge engineering and project management services that drive value and exceed client expectations.

02

Become the trusted, long-term partner of choice by building strong relationships with clients and stakeholders globally.

03

Expand our presence and influence in the international market, setting new standards for excellence in engineering consultancy and project management.

Other Core Values

People Centric

Prioritizing the growth and well-being of our people.

Innovative Thinking

Fostering creativity and innovation to drive progress.

Diverse & Versatile

Embracing diversity and versatility to enrich our solutions.

A circular frame on the left side of the page shows a modern desk setup. On the desk, there is a large computer monitor, a keyboard, a mouse, and a pen holder. A desk lamp is visible on the left, and a small clock is on the desk. A speaker is mounted on the wall below the desk. A fan is on the floor in the bottom left corner. The background is a white brick wall.

Our Projects

At HRGF, we offer a comprehensive range of services including Design, Supervision, Construction Management, Quantity Surveying, and the preparation of BOQs for diverse projects. Our strong reputation for excellence is founded on a robust organizational structure, advanced engineering design software, a productive work environment, and a solid base of human and financial resources. We consistently deliver projects on time, within budget, and to the highest standards of quality. Our approach focuses on meeting client needs, utilizing appropriate materials and technologies, and applying constructability and value engineering for innovative, specialized solutions.

Vision

Our vision is to become a world-class leader in engineering and project management consultancy by continuously delivering exceptional value to our clients and establishing ourselves as the partner of choice in the industry.

Milestone

2010

Holy Rock & Green Flag (HRGF) Engineering Office was established in Riyadh, Saudi Arabia, offering comprehensive consulting services across multiple engineering disciplines.

2011

HRGF was officially incorporated as a Saudi company based on the Law of Mixed Professional Companies, setting the foundation for delivering high-quality engineering and project management services.

2012

HRGF expanded its services to include Construction Management, Quantity Surveying, and the preparation of Bills of Quantities (BOQs), enhancing its project delivery capabilities.

2015

The firm integrated state-of-the-art engineering design software into its operations, improving efficiency, precision, and innovation in project execution.

2020

By 2020, HRGF had established a reputation for consistently delivering projects on time, within budget, and to the highest quality standards, earning trust across various sectors.

2023

HRGF became recognized for its multi-disciplinary expertise, highly qualified engineering team, and innovative solutions, cementing its position as a leading consultancy in the region with a proven track record of success.

Market Analysis

2021

Steady performance with moderate growth in Seri 3, indicating rising demand in specific market segments.

2022

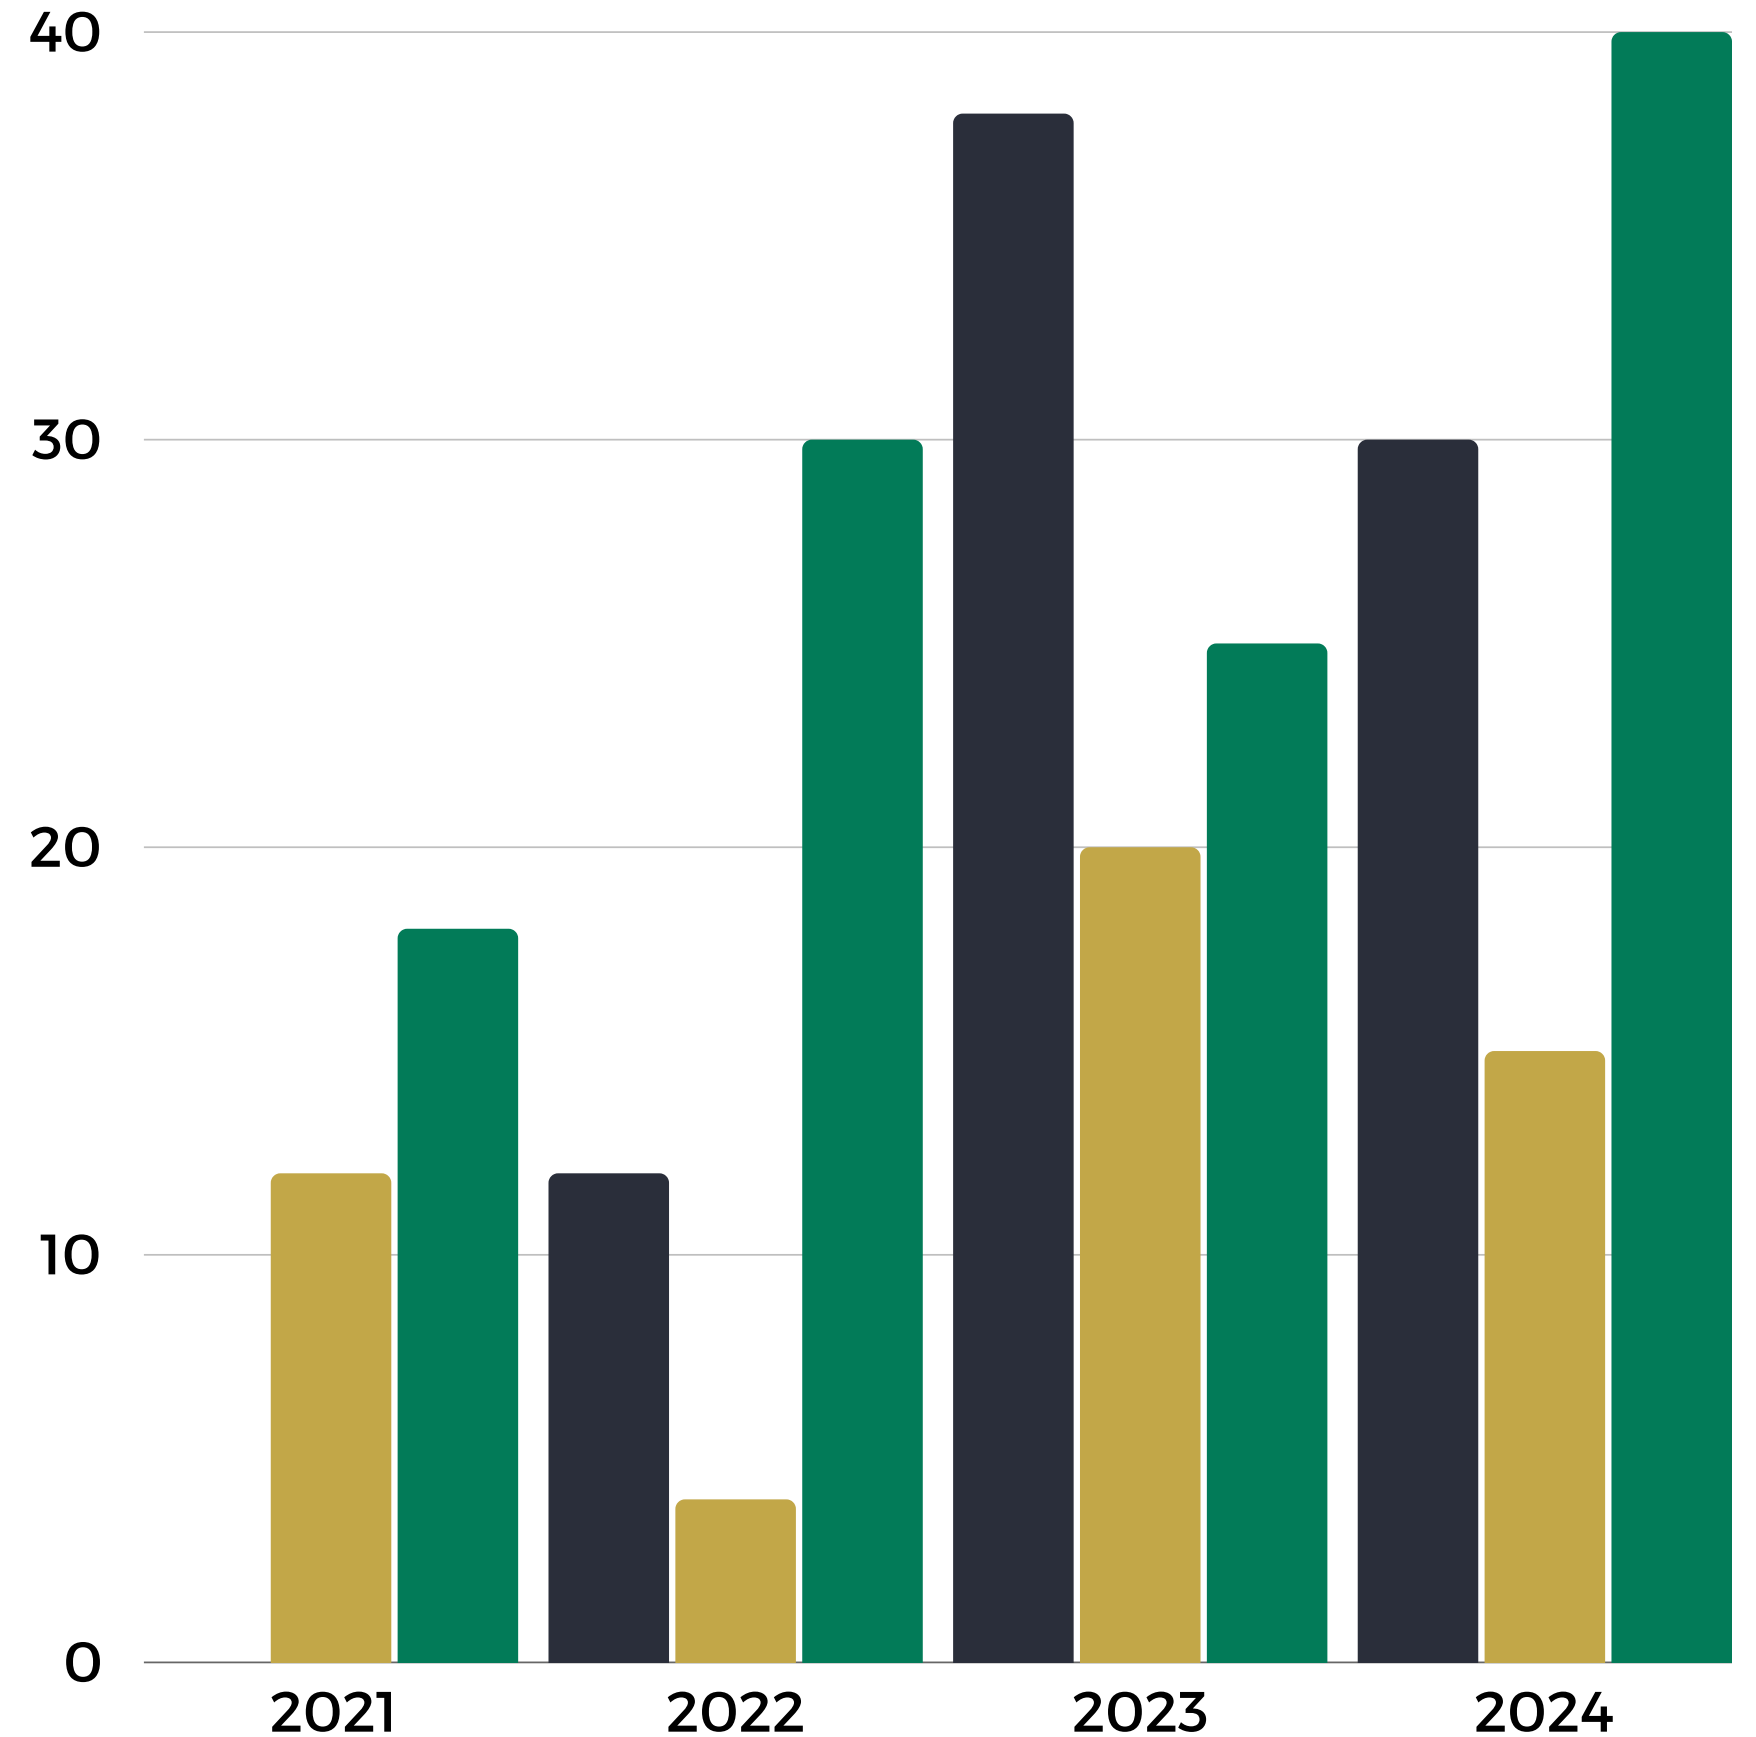

Significant growth in Seri 3, while Seri 2 dropped. Focus shifted toward products with higher demand.

2023

Major surge in Seri 1, with solid performance across all series, signaling broader market acceptance and expansion.

2024

Strong performance across the board, particularly in Seri 3, indicating potential dominance in specific sectors.
